

Installation Ring

The tool for the professional and smart installation of various flooring types, including **wood, vinyl, laminate, and design flooring**. It facilitates **precise positioning** and **gentle pressing** of flooring elements, making the use of a hammer and impact tool largely unnecessary. **Perfect for flooring professionals and ambitious DIYers who value precision and efficiency.**

Installation Ring

Advantages at a glance:

- ✓ **Gentle application:**
Prevents edge damage of the floor elements through controlled force distribution.
- ✓ **Efficient handling:**
Allows for quick, one-handed work without additional tools.
- ✓ **Universal use:**
Suitable for wood, laminate, vinyl, and design floors – regardless of the installation pattern.
- ✓ **Ergonomic design:**
Rounded edges and slim profile ensure comfortable use.
- ✓ **Robust construction:**
Durable and resistant – ideal for heavy-duty use.

Product Description:

The Installation Ring enables precise sliding and pressing of flooring elements without damaging their sensitive edges. Thanks to its weight and ergonomic shape, each element is quickly and gently brought into position. Compared to traditional tools, it's more efficient – instead of using both hands with an impact tool and hammer, you only need one hand!

Technical Data:

- Outer diameter: 150 mm
- Inner diameter: 100 mm
- Width: 40 mm
- Weight: 0.92 kg

Application instructions – IMPORTANT!

Please test the product on an inconspicuous area of the flooring before use.

Depending on the material type and surface finish, slight visual changes may occur if excessive pressure or friction is applied.
