## HUMMEL<sup>®</sup> LED Work Light

The LED work light for the HUMMEL<sup>®</sup> ensures that frequently occurring problems due to poor lighting conditions are no longer an issue. This perfectly-integrated solution gives you optimum visual control over the sanded surface at any time.

### Product details:

- Power: 30 Watt
- Luminous flux: 3.480 lm
- Number of LEDs: 32
- Slidable light: up to 70°

### Your added value:

- Better visibility of sanding mistakes and floor damages, thus avoiding additional time and cost-intensive work steps
- Work light can be easily detached if necessary, especially in confined spaces
- No external power connection necessary! Power is supplied via the machine
- Long service life due to high-quality LEDs
- Durable and stable construction

### Requirements for retrofitting:

HUMMEL<sup>®</sup> year of construction 1990 onwards with a square motor switch box.

For safety reasons, the retrofitting may only be carried out at our facility, at a certified LÄGLER<sup>®</sup> repair shop or alternatively by a qualified electrician.

**If you have any further questions about the product, please do not hesitate to contact us.**
