News & Highlights

The DIAMOND sanding disc for the SINGLE is made out of durable stainless steel and comes with six diamond sanding segments. Its high performance saves its user precious time when removing old fillers, glue and tile adhesive residues. With the DIAMOND sanding disc screed can be sanded and the subfloor prepared for the installation of wood and tile floors.

- Easy to Use
- Fast Disc conversion
- Adjustable removal rate
- Longevity

With the SINGLE, the user enjoys full flexibility, a low-dust work environment and the potential to save a lot of time.
